Find the right solution for your job in our wide range of extremely sharp milling bits

Variations of Pro-Tools

CKAcoat

- hard coating
- Zirkonium- Oxyd
- sturdy, polished surface
- optimized for alloy-material

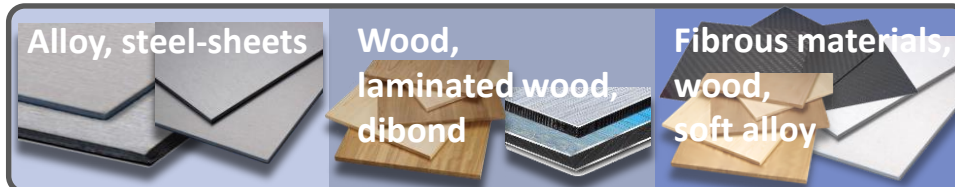

CKBcoat

- hard coating
- PVD, polished surface
- optimized for laminated wood
- optimized for dibond-material

CKCcoat

- Diamond coating
- sliding effect, wear resistance
- optimized for fibrous materials, nf-metal, wood

Purpose

Large selection of

- 1 and 2 fluted versions
- 6 mm shank diameter
- up, straight, down cut
- multi-purpose and pro milling bits

Optimized for

- alloy, cobond, dibond
- wood, laminate
- fibrous materials
- steel sheets, Kömasteel

Improved for the tasks

- debris removal
- clean and clear cut
- cutting speed
- lifetime

Multi-purpose and Pro milling bits

CAAcoat

- coating for ultra hard cutting edges
- sliding effect, wear resistance
- optimized for alloy-dibond, steel sheets, Kömasteel, Masterbond
