Lesyk NEWS

For die cutting and trimming

our wide range offers materials and accessories for all common applications.

Make ready Materials

- **make-ready paper** in sheets or rolls in various thicknesses
- **make-ready foils** in rolls
White opaque 80μ
- **Underpacking sheets** in various thicknesses 0,05 to 0,50 mm
- **Profi-Tapes** self-adhesive in thickness 30μ, 50μ, 80μ

Despite faltering supply chains, we were currently able to increase our stock with the **make ready foil, item no. 007.40.001**. Therefore, we will be able to react to your order at short notice in the foreseeable future and provide you with the necessary material and accessories.

Drawing foils

- **Drawing foil** - dimensional stability
- Available in **sheets** or **rolls**
- Thickness from 70μ to 150μ
- suitable for inkjet and ballpoint pens
- usable on one or both sides

Plotter pens / Ballpoint pens

- 76mm und 89mm
- fine, medium, bold
